

Effective Questions for Developing a detailed action plan in the context of DA

- State the end result to be realized (plan, actions, dates, steps)
 - What are the potential problems? What is the probability of occurrence? How seriousness it is?
 - What are the likely causes?
 - What actions would reduce the probability of occurrence?
 - What contingent actions would minimize its effects?
 - What signals would suggest to implement the contingent action(s)?
- Modify plan (What, Who and when)
